

- + Capacity: 107 bottles*
- + Vinotag compatible** 
- + Free standing installation
- + Design: black
- + Cooling system: compressor
- + Type of cold: air moving system
- + Adjustable temperature range of use: 5°C-20°C
- + Electronic regulation
- + Thermometer with white digital display
- + White LED lights with switch button
- + Humidity control: natural (hygrodynamic concept)
- + 1 reversible glass door, anti-UV treated, 2-layers tempered glass (grey-colored) with lock

TO THE NEAREST DEGREE

The PRO110N aging cellar reproduces the storage conditions of a natural cellar: Temperature controlled by an electronic thermometer for adjustment to the nearest degree; Filtration and aeration system (activated carbon filter); Hygrometry controlled between 50 and 80%; Protection against light and anti-vibration system guarantee the good aging of your bottles.

OPTIMIZED STORAGE

Fitted with 10 sliding steel wire shelves, the PRO110N cellar can age up to 107 75 cl Bordeaux type bottles. Ergonomic, the shelves have been designed for a horizontal presentation of the wines which facilitates the reading of the labels and the identification of the bottles. Multi-format, they can receive several types of bottles, and are thus adapted to accommodate Burgundy, Champagne and Alsatian type bottles.

PROFESSIONAL QUALITY

Large handle and sliding shelves allow quick handling and easy access to wines secured by a lock. The bottom of the cellar protection plate allows you to close the door with your foot to save time. Finally, the horizontal presentation of the bottles and the compatibility with the Vinotag® application allow you to identify and manage your wines in record time. Open door switch for fan and light. Reversible door.

Eco-responsibility

Our products are manufactured in compliance with European environmental rules. Especially, refrigerant fluid (R600a) doesn't reject neither CFC nor HFC and respect environment.

Energy consumption is calculated based on the result obtained for 24h in standard test conditions. The actual energy consumption depends on the conditions of use and location of the device.

This equipment is designed to be used in an ambient temperature between 16°C-32°C.

This appliance is intended to be used exclusively for the storage of wine.

Alcohol abuse is dangerous for health, please consume in moderation.

*Capacity given as an indication with 75cl Bordeaux traditional type bottles and measured with 10 shelves. Adding shelves reduce considerably the total capacity.

**Thanks to the Vinotag® application, benefit from a digital register of your wine cellar and be alerted of the peak dates of your wines. In partnership with Vivino, scan your bottle to access its pre-filled wine sheet.

PRO110N

Ageing wine cabinet
Professional range

> EQUIPMENTS INCLUDED

- 10 sliding wire shelves , metal front
- 2 adjustable feet (height 0.8 cm)
- 1 active charcoal filter
- Anti-vibration system

> TECHNICAL CHARACTERISTICS

- Energy class: G
- Annual electrical consumption: 155 kWh
- Climatic class: SN-ST
- Noise level: 37 dB
- EEl: 158.50
- Voltage: 220-240 V
- Power input: 80 W
- Category: 2 - Wine cellar
- Type of gas: R600a

> SAFETY

- **Winter system:** maintains the required temperature of your cellar in case of any ambient temperature drop, ideal during winter
- **Visual and audible alarms:** notify you when your attention is required

> VINOTAG® APPLICATION

Free wine cellar management application. Access a virtual representation of your wine cellar and a detailed inventory of its contents.

> COMPATIBLE ACCESSORIES

- Active charcoal filter: ref. FCA07
